September Special

By all these lovely tokens, September days are here,

With summer's best of weather, and autumn's best of cheer."

– Helen Hunt Jackson

September stepped in like a gentle bridge between the warmth of summer and the promise of autumn. It carried with it golden sunshine softened by cool breezes, skies that seemed calmer, and evenings touched with a quiet glow. The month stood as a reminder that change need not be rushed—it can arrive gracefully, like leaves slowly turning from green to shades of amber and gold.

It was a time of balance, when day and night shared equal hours during the equinox, teaching us the beauty of harmony in nature and life. The earth appeared to hum softly in its transition, reminding us that endings are never just farewells—they are also beginnings in disguise.

September was not only a season of shifting weather, but also a season of reflection and gratitude. It whispered to us to slow down, to notice the delicate changes around us, and to embrace the quiet magic of this in-between time.

“The highest education is that which does not merely give us information but makes our life in harmony with all existence.” – Rabindranath Tagore

Dear Parent,

As the pages of another month turn, I am reminded that a school is not merely a building where lessons are taught, but a living, breathing space where young minds are nurtured, dreams are kindled, and values take root. Each day within our corridors is a symphony of curiosity, laughter, discovery, and growth—a symphony made possible through the collective efforts of teachers, children, and the unyielding trust you place in us.

September has always felt like a month of balance—where the warmth of summer gently yields to the serenity of autumn, and where learning, too, finds its rhythm after the year's early beginnings. It is a time when children begin to blossom more fully into their routines, showcasing both their creativity and resilience. Whether through academics, co-curricular activities, or celebrations, our students are continuously weaving together experiences that will remain the foundation of their character.

At the heart of it all lies our commitment—to create an environment that does not simply prepare children for tests, but for life itself. A place where they are encouraged to question, to explore, to respect, to empathize, and to lead with courage and humility.

As we journey forward together, let us remember that education is not measured in marks alone, but in the shaping of confident, compassionate, and capable individuals. Thank you for walking this path with us, hand in hand, in nurturing the promise of tomorrow.

With warm regards,

CIRCLES OF OUR HEART

In the dance of days and nights,
We find ourselves in endless
flights,
Turning round and round we go,
In circles, truths we come to
know.

With every sunrise, we begin,
A journey new, a path within,
Step by step, we trace our
dreams,
In circles, life's a flowing stream.

Through the laughter, through the
tears,
We face our hopes, confront our
fears,
Hand in hand, we walk this line,
In circles, hearts and souls align.

The seasons change, the years
unfold,
Stories new and tales retold,
With every circle, bonds grow
tight,
In unity, we find our light.

When shadows fall and doubts
arise,
We look within and realise,
In the circles of our hearts,
We're never truly far apart.

Together, we can face the storm,
In each other, we find warm
Circles of our endless ties,
In each other's strength, we rise.

So let us cherish every turn,
In every circle, lessons learn,
For in this dance, we find our
way,
In circles, love will always stay.

WISDOM WALL: FROM THE TEACHERS' CORNER

Hearts That Teach

In the Hands of Love, a Child Takes Shape

***“Children Are Not Things To Be
Molded, But People To Be Unfolded.”***
– Jess Lair

Guiding a child is much like the delicate art of pottery, it requires patience, care, and understanding. A skilled potter never forces the clay into shape; instead, they work gently, allowing its form to emerge naturally. Apply too much pressure, and the clay cracks. Too little, and it loses its form. Children are the same, they need just the right balance of guidance and freedom to grow into their best selves.

In pottery, the artist decides the final design. In life, however, the design already exists within the child. Our role as parents and teachers is not to impose our own vision of what they “should” become, but to help reveal the unique shape they already hold inside. We smooth away rough edges with kindness, strengthen their structure with values, and polish their abilities with encouragement.

A finished pot bears the marks of the potter’s hands, yet remains its own creation. Likewise, a child carries the influence of those who guide them, yet their personality, talents, and dreams are truly their own.

When we try to mould children into our image, we limit their potential. But when we see them as treasures to be unfolded, we help them grow into confident, creative, and resilient individuals — not because we shaped them, but because we gave them the space, love, and freedom to shape themselves.

“Building Foundations: The Role of Assessment in Primary Education”

Assessment plays a crucial role in the learning journey of children, especially in the primary years. At this stage, students are building their foundation in reading, writing, numbers, and thinking skills. Regular assessments help teachers understand how well each child has grasped concepts, identify areas where they may need more support, and celebrate their strengths and progress.

Assessments are not only about marks; they give us a clear picture of a child’s overall development—academic, social, and emotional. Through these, we can plan better lessons, provide individual attention, and encourage children to grow at their own pace. For young learners, assessments also help build confidence, develop good study habits, and create a sense of responsibility towards their work.

As teachers, we view assessment as a tool to guide and support learning rather than to compare children. Our goal is to nurture curiosity, creativity, and a love for learning while ensuring that every child feels valued and motivated.

आज के बच्चों के लिए हिंदी का महत्व

हिंदी हमारी मातृभाषा है और यह केवल एक भाषा नहीं, बल्कि हमारी संस्कृति, परंपरा और पहचान का प्रतीक है। आज के दौर में जहाँ अंग्रेज़ी और अन्य भाषाओं का चलन बढ़ रहा है, वहीं बच्चों के दिल में हिंदी की जगह अब भी खास है।

बच्चों के लिए हिंदी सिर्फ बोलने या लिखने की भाषा नहीं, बल्कि भावनाओं को व्यक्त करने का सबसे सहज साधन है। जब वे अपनी मातृभाषा में बात करते हैं तो उनके विचार अधिक स्पष्ट और दिल से जुड़े हुए लगते हैं। हिंदी साहित्य की कहानियाँ, कविताएँ और लोककथाएँ बच्चों को न केवल मनोरंजन देती हैं बल्कि नैतिक शिक्षा भी प्रदान करती हैं।

आज तकनीक और इंटरनेट की दुनिया में भी हिंदी का प्रभाव बढ़ रहा है। बच्चे मोबाइल, टीवी और सोशल मीडिया पर हिंदी सामग्री देख और समझ रहे हैं। इससे उनकी भाषा-सम्पन्नता बढ़ती है और वे अपनी जड़ों से जुड़े रहते हैं।

हिंदी बच्चों को अपनी संस्कृति, इतिहास और परंपराओं से परिचित कराती है। त्योहारों के गीत, लोककथाएँ और किस्से बच्चों के मन में हिंदी के प्रति अपनापन जगाते हैं। यही कारण है कि चाहे आधुनिक शिक्षा का दबाव हो, लेकिन बच्चों के दिल में हिंदी की मिठास और महत्व हमेशा बना रहता है। आज के बच्चों के लिए हिंदी केवल संवाद का माध्यम नहीं, बल्कि अपनी पहचान, संस्कृति और भावनाओं से जुड़ने का जरिया है। यह भाषा उनके दिल में हमेशा सम्मान और गर्व की जगह बनाए रखेगी।

What teachers Make

By Taylor Mali

You want to know what I make? I make kids wonder,
I make them question,
I make them criticize,
I make them apologize and mean it,
I make them write,
I make them read, read, read,
I make them spell *definitely beautiful*,
definitely beautiful, *definitely beautiful*
over and over and over again until they will never
misspell
either one of those words again.
I make them show all their work in math
and hide it on their final drafts in English.
I make them understand that if you've got *this*,
then you follow *this*,
and if someone ever tries to judge you
by what you make, you give them *this*.

Here, let me break it down for you, so you know
what I say is true:
Teachers make a goddamn difference! Now what
about you?

“Dancing Hearts, Shining Spirits”

When rhythm meets expression, every step becomes a story.

At LPS Global School, dance is not merely seen as an art form, but as a radiant language of the soul—one that nurtures discipline, awakens creativity, and fills hearts with joy. Throughout the recent sessions, our young learners immersed themselves in the beauty of movement, exploring diverse dance styles that awakened their rhythm, enriched their imagination, and amplified their confidence.

The journey unfolded in vibrant layers:

Semi-Classical Dance – An elegant window into India’s cultural heritage, where every graceful posture, hand gesture, and expression reflected timeless traditions.

Bollywood Dance – Spirited and energetic routines that transformed the floor into a stage of joy, keeping students motivated and brimming with enthusiasm.

Western Dance – Contemporary and modern movements that enhanced agility, refined coordination, and built poise for the spotlight.

Free Dance – A liberating space where children expressed their individuality, swaying freely to music while discovering the art of storytelling through movement.

Far beyond rhythm and technique, these sessions became a celebration of self-expression and holistic growth. With every twirl and step, students gained confidence, rhythm, flexibility, and above all, the courage to let their inner light shine. Dance wove together teamwork, creativity, and joy—turning every learner into a radiant star both on stage and in spirit.
